

FAMILY FUN
Programs and events for the whole family.

Coming June 23

This summer in the World of Wonders Children's Garden, families will take on the roles of explorers as they trek across the globe in search of plants. Travel the routes of Marco Polo and Lewis & Clark to learn how plants influenced the history of the world. Follow the historical paths of some of our favorite Passport Garden plants to discover how they were introduced to new locations. Visit our mini-botanists' research station to learn about plant collection practices. Can you navigate your way through these explorers' gardens to add stamps to your Plant Passport?
