

Do You Know My Niche?
Can you match up the job or Niche to the correct animal?

“I help control the pest population in local wetlands. I use my long thin legs to walk out into the water and snatch my prey with a long sharp beak.”

“I am a great gardener. I help spread seeds through the forest when I rub up against something that has spiky shell. I also help clear paths in the forest as I walk through the brush in search of food.”

“I am an exterminator that helps control the small animals that cause problems in your garden. I use my soft padded feet to quietly sneak up on my prey.”

“I look for food at night which means that I am nocturnal. I work as a trash collector and dispose of leftovers that nobody else wants.”

“I am an architect. I create a home called a dam out of mud and sticks. This home provides a safe place for me to live near the water.”
